THE MAY EXHIBIT IN DETAIL.

The strike long since proved itself an utter failure. The boyout is a weak malicious, impotent device of a ver few selfab and irresponsible individuals. The TREES and irresponsible individuals. The Times defines it and them and continues to employ organized labor, paying thereto mere in wages annually than any rival establishment. The business men of Los Angeles are counseled to pay no attention to allen carpetbaggers, professional anaron sts and lawless enemies of their best interests.

We stand ready to exhibit to advertisers our circulation books and pressroom reprits, at any time, as a verification of the claims above. Our charges are fixed on the only true basis, hamely, the UIR-CULATION of THE TIMES, which is guaranteed to be double, that of any local compactitive journal.

Foreign Countries Greatly Interested the World's Fair-France and Austria Will Make Liberal Contributions

By Telegraph to The Times. CHICAGO, June 15 .- | By the Assoc ated Press.] The Board of Control of the National World's Fair Commission has confirmed the appointment of Skiff as chief of the mines and mining department.

H. C. Ives of St. Louis was confirmed as chief of the fine arts departnent.

The surprise of the session was when he question came up on the confirmation of Gen. Chipman of California nominated by Director-General Davis, and confirmed by the local directory for chief of the borticultural bureau He was unanimously rejected on mo tion of St. Clair of West Virginia, seconded by Com-missioner Massey.

COLGAN'S QUIBBLE

He Will Not Sign Warrants for Cal-flornia's Appropriation. SAN FRANCISCO, June 11.—[By the Associated Press. | State Controller Colgan has announced that he will refuse to sign the warrants granting \$300,000 to the California World's Fair Commission for the State exhibit. He bases his action on the provision of the State Constitution which says no money should be appropriated for the benefit of any association or institution not under the exclusive con trol of the State. He claims that the California World's Fair Commission is not exclusively under the State's con-trol, but looks to the National Commission for authority. The case will be tested in the courts.

THE FRENCH EXHIBIT.

A Liberal Appropriation Will Be
Asked in the Chamber.
PARIS, June 15.—[By Cable and
Associated Press.] The Minister of Marine says the appropriation for the Chicago fair was discussed at a recent cabinet meeting. Minister Roche asked each minister to state what money is necessary for a worthy exhibit in his special department. The total was found to be over f1,000,000. "So we shall ask the chamber," said Bar bey, "to vote about f1,200,000. Doubtless the chamber will accede."

Among the reports from the United States consuls in regard to foreign representation at the Chicago fair, Goldschmidt at Vienna says: "Austria will be well represented. There is no apathy towards the exhibition here."

H. G. Knowles of Bordeaux says:
"The majority of persons with whom I conversed are favorably inclined toward the fair. Bordeaux has large interests in the United States, and G. Knowles of Bordeaux says: when the time arrives her commercial

the greatest here."

THE ANACONDA MINE.

Another Report of Its Sale to the CHICAGO, June 15.—[By the Associated Press. | A special dispatch from Butte City, Mont., says that August Belmont, as agent for the Rothschilds, has been instructed to close a deal by which the latter will, in September next, take possession of the great Anaconda copper mine. The price to be paid is stated at between \$20,000,000 and \$25,000,000. The purchase by the Rothschilds is said to be for a foreign

syndicate.
SAN FRANCISCO, June 15.—Irwin C. Stump, agent for the Hearst estate, which is one of the principal owners of the Anaconda copper mine, denied any knowledge today of the probable sale of those mines as reported in eastern dispatches. He stated that the property was bonded to an English corporation known as the Exploration Company, and that the bond will expire October 1, 1891. The English people have not, it is stated, given any notifi-cation that they intend to buy the mines in question,

FATAL COLLISION.

THE LOS ANGELES EXPRESS PARTLY WRECKED.

Mall Clerk and Several Others Killed-The Disaster Caused by Running Into a Work Train.

By Telegraph to The Times.

SAN FRANCISCO, June 15.-[By the Associated Press.] The north bound Los Argeles express, due in this city at 11:15 this forencon, collided with a freight train near the switching yards at Port Costa, shortly before 10 o'clock. The crash was a serious one, the locomotives of both trains being badly smashed, and the mail and express cars of the Los Angeles train telescoped.

A brakeman named Jordan on the freight train was killed, and Engineers Moore and Abbey were both injured and both firemen were hurt. Mail Clerk Spurgeon was killed.

The wreck occurred south of Port Costa switching yards. While the Los Angeles passenger train was approaching the station a gravel train consist ing of fifteen cars was on the main track and the passenger train crashed into it while moving at a high rate o speed, though an attempt was made to stop the train by the aid of air brakes. OAKLAND, June 15 .- The collision

ccurred on the single track between Port Costa and Martinez near the coal bunkers of the Black Diamond Coa Company. The Los Augeles express was going toward the pier and the gravel train carrying gravel for the new San Ramon branch was running toward Martinez. There is a double curve in the road. Evidently neither engineer saw the other train approaching until just before the collision. The engines came together with a terribl crash, both being badly damaged. The mail car of the express train was smashed. No other cars of the express train were damaged. Ten flat cars

badly injured and died on the train on the way to Oakland. The body was taken to the Oakland morgue.

James Abbey, engineer of the Los Angeles express, had a hand injured. The injury is slight.

Carl Partridge and W. A. Daggett, mail clerks, were bruised and burned. They were taken to San Francisco.

Fireman E. J. Farley of the express was penned under the debris. He has a bad scaip wound, bruises on the body and internal injuries. He was brought to Woolsey's hospital, in Oakland, to Woolsey's hospital, in Oakland, vomiting blood and very severely wounded, but may recover.

Division Superintendent Wilder says

he does not know who is to blame, but the gravel train should have been held at Port Costa until the express passed. The gravel train had orders to wait at Port Costa for the southern over-

Fireman La Rue of the gravel train was badly burned and bruised. He has just arrived at his home in Oakland. The mail clerk was a son of the Mayor of Santa Ang. the Mayor of Santa Ana.

COL. KING'S TRIAL

The Defendant Still on the Witness MEMPHIS, June 15.—[By the Assoclated Press.] The cross-examination of Col. King was concluded today in the Preston murder trial. He denied numerous allegations which had been made against him, touching his doings at different times in his career.

On redirect examination it was brought out that the object of the cross brought out that the object of the cross bill filed by Mrs. Pillow in Arkansas and Tennessee was to gain possession of property deeded and willed to her. Witness had nothing to do with the filing of the divorce bill against his wife. Mrs. Pillow did it herself. Witnesses denied that there was anything in the lifestion, that warranted the in the litigation that warranted th scandalous charges complained of in the cross bills.

BERNE, June 15 .- | By Cable and Associated Press.] The total number of people who lost their lives vesterday by the collapse of the railroad bridge on the Moenchenstein Railroad is now placed at 120, with hundreds more or less injured. Another account of the disaster says that fifty-seven bodies are already recovered, and that forty persons are severely wounded. It is feared many others are dead whose

victims are mostly leading citizens of Basle and its neighborhood. Heartrending scenes were witnessed in Basle today when the bodies of a large number of victims were taken there by the sorrowing relations, for representatives of a majority of the pest families of Basle were among the

bodies have not been found. The

best families of Basle were among the killed and injured. Several families are practically wiped out of existence by the disaster, the full extent of which is not known even at this hour. Basle is now a scene of bitter desolation and mourning. Nearly every family in the city may be said to have been touched by the calamity, for those families who have not actually lost one of their members have lost friends or acquaintances either among the dead or among those who are the dead or among those who are mourning the loss of relatives. Those who were wounded include so many whose injuries are fatal that almost each hour records another death or another case in which the physicians give up all hope of saving the patient's life.

Everything the local and municipal authorities can do to help the wounded, recover the dead or assist those in distress, is being done. Clergymen and physicians, a large force of troops and firemen, and scores of vehicles to be used as ambulances, have been this afternoon the thermometer regisdispatched to the scene of the wreck. Troops and firemen are busily engaged in removing the wreckage, recovering the bodies of the dead and transporting the wounded to their homes or to the hospitals. Physicians and ministers of the gospel are doing noble work in administering are doing noble work in administering to the wounded and comforting the beraved. The neighborhood of the collapsed bridge now resembles in many features the after scenes of a battle, the closing acts in some warlike strug-

gie. Still more so was this the case last night, when the river banks were illuminated by huge fires. Troops and firemen are working unceasingly, dragging the river for the dead, nursing the wounded and keep-ing guard around the spots where it was not thought advisable to admit the crowd of people who had flocked to the scene from every village in the canton. The work of the soldiers in dragging the river is greatly impeded by the fact that the stream is consider-

ably swollen by melting snow. Thus the waters have carried away Thus the waters have carried away many bodies and several days' dredging will be required before the soldiers' work will be complete. That "somebody is to blame" for the accident nobody doubts, but the people are so taken up with the present duty that the question of blame is postponed for the present from official considers. for the present from official considera-

Shortly after the first horror of the crashing of the engines and cars through the bridge and into the swiftly running stream had died away, the survivors saw a scene which rivaled in horror the most heartrending features of the Johnstown disaster. of the Johnstown disaster. Beneath what remained of the bridge was a hideous mass of broken car wood, car wheels, engines, etc., intermingled with still quivering heads, bespattered with blood and brains, protruding arms and legs, bloody garments of all descriptions, hats and bonnets, umbrelias and parasols; while floating down the strang wars numbers of dead bodhe stream were numbers of dead bodies and faintly-struggling men, women and children, a few now and then uttering horrible cries. After the first moment of partial paralysis of action, which followed the revelation of this horror, the survivors did their utmost to rescue those whose lives were in danger. The work of pulling those who remained in the two suspended which they were placed was one of great danger and difficulty, and resulted in a number of instances of heroic conduct.

In the meanwhile, passengers were despatched on all sides for medical relief, which was most urgently needed by the hundreds of wounded people, whose distressing cries for help and prayers to God asking Him to relieve them of their sufferings, were most heartrending. When the relatives of the dead and woulded began to arrive and identified some of the victims, there was another most awful series of incidents. The wildest grief was ex-pressed on all sides. Weeping and mourning filled the air, and soveral people were, with difficulty, restrained from casting themselves into the

As night drew near enormous crowds of country people and citizens of Basie gathered around the fatal spot, taxing the power of the military to the ut-most in the efforts of these people to get a nearer and closer view of the hor-rors piled beneath the bridge. To such an extent did this desire prevail that the crowds of people imitated soldiers, firemen and railroad men, and bi-vouncked for the night in the vicinity of the remains of the broken bridge. At a late hour tonight it is still im-

nossible to give an accurate number of the killed. There are many persons missing. The killed certainly cannot number less than eighty.

Etruria, of the Cunard line, had been lost at sea. The New York represent-Details of the Disaster in State of the Company say they have no information of any accident, and believe the vessel is all right. The Etruria left New York for Liverpool on the Company of the Company on Saturday with a large complement of passengers. The origin of the ru-mor cannot be traced.

Death of "Fritz" Emmett. CORNWALL-ON-THE-HUDSON, (N.Y.) June 15 .- J. K. Emmett, the actor, died today of pneumonia. Emmett was born in 1841, at St.

Louis, where, when about 20 years old he married Miss Elizabeth Webber. In 1866 he got an engagement as a variety actor in Cincinnati, and later joined Bryant's minstrels. While a variety actor he originated his "German song and dance" which attracted so much attention. In 1869 at Buffalo he made the hit of his life as "Fritz".

tional shooting affair took place this afternoon in a florist's establishment between Charles W. White, a wellknown attorney, and J. P. Slough, his son-in-law. Slough and wife have separated and he has made charges and so when they met both drew re-volvers. Ten shots were fired. White was fatally injured. Slou slightly wounded in the hand.

More Indian Troubles CLOQUET (Minn.,) June trouble on the Fond du Lac Indian reservation broke out afresh yesterday. The Indians destroyed McDavitt's dam on Stony Brook. They also threaten to derail Duluth and peg trains and tear up the tracks if that road hauls any more cedar poles that are cut on the reservation. A force of armed men left for the scene of trouble today.

No One Will Complain Just Now. CHICAGO, June 15.—Last year the City Council passed a bill requiring street railway companies to heat cars in cold weather. A test case was brought, which Judge McConnell de-cided today. He holds that the ordi-nance is invalid, on the ground that the Council was not clothed with power to impose such a burden.

THE ARGUMENTS OF COUNSEL

Mason Bradfield Pleads Not Guilty of the Murder of Joe Dye-The -Court Notes.

The trial of the Wong Ark case, which occupied the attention of Judge Shaw and a jury in Department Six the whole of last week, was resumed at 10 o'clock yesterday morning, Officers W. Johnson and M. T. Bowler and Detective Fred C. Smith being recalled in rebuttal and examined briefly as to the size of the room in which Ark was captured on the d y of Goot Gue's death. The taking of testimony then closed, and Deputy District Attorney G. P. Phibbs opened the argument for the presecution in a strong speech which consumed the whole of the morning session. Mr. Paibbs, in reviewing the evidence, touched upon the fact that the defendant and Goot Que lived together as man and wife at Lee Tuck's place, and frequently quarreled. That on one occasion Ark accused the woman of tampering with his medicine; that ten days before the murder the defendant wanted to get rid of the woman by sending her to San Francisco, because she bestewed her frections upon another Chinaman. The speaker then dweit upon the testimony of the wom n Fook Moy; and especially upon the positive statement that the wounded woman had said that Kum Dock had shot her. Bevan's testimony was then reviewed at length and compared with that of the witnesses for the defense. Referring to the defense, Referring to the defendant, Mr. Philobs called the attention of the bury to the contradiction and the statement of the plury to the contradiction and the attention of the bury to the contradiction. together as man and wife at Lee Tuck's ferring to the defendant, Mr. Phibbs called the attention of the jury to the contradictions apparent from his story, and the proofs of his guilt to be dr. wn from his actions. The improbability of the detendant's story about bribing Beva: and Rohn was touched upon, and the fact brought out that, even were it true, the d-fendant would be gurity of a felony and ought to be sent to the penientiary for it. The Deputy District Attorney closed by explaining to the jury its duty as regards the credibility of the witness and other legal p ints.

A recess was then taken until 1:30 o'clock, at which hour Jesse Hardesty, Esq., took up the cudgel on behalf of the defendant. The defendant's counsel commenced his address by referring to the doc rine of Con-

F. B. Guthrie, Esq., followed at 3:45 o'clock, and was still speaking when court adjourned for the day at 5 o'clock. He argued that there was no evidence to the effect that the defendant had shot Goot Gue except that offered through Bevan, who had been contradicted by a degen Chinamen. He dwelt upon the fact that the prosecution had failed to introduce the woman's dying declaration in evidence, but refused to allow it to go in when the District Attorney produced it, and said that there was "evidently something rotten in Denmark, and it was not in the police department this time."

Mr. Guthrie will close for the defendant this morning, and District Attorney Mc-Lachian will reply for the prosecution, so that the case cannot possibly reach the jury until the afternoon session. BRADFIELD PLEADS NOT GUILTY.

In Department one yesterday morning Mason Bradfield appeared before Judge Mason Bradfield appeared before Judge Smith with his counsel, Messrs. Shinn and Ling, for arraignment upon the charge of having murdered Joseph Franklin Dye, on May 14 ast. On motion of the defendant's counsel the time in which to plead was continued until 2 o'clock p.m., at which hour Bradfield again appeared. R. A. Ling, Esq., then moved the Court to set aside the information filed against the defendant on the ground that before it was filed said detendanthad not been legally committed by a magistrate. A demurrer was also interposed on the ground that the information des not state facts sufficient to constitute a public offense; that the Courf has no jurisdies not state facts sufficient to constitute a public offense; that the Courf has no jurisdiction over the person of the defendint or the subject matter of said information; and that it does not substantially conform to the requirements of sections 950, 951, and 952 of the Penai Code.

The motion was denied and the demurrer overruled, whereupon the detendant entered his plea of not guilty and the cause was thereupon on motion of his counsel placed upon the trial calendar.

Court Notes Upon motion of Alex Campbell, Esq., and resentation of license from the Supreme Court of Missouri, Nelson C. Burch was admitted by Judge Ross yesterday, to practice in the United States Courts of this district. In the United States Circuit Court yesterday morning, Judge Ross heard argument up-n the motion of the defendants to dissolve the temporary injunction issued in the cases of Wyman and Kingston against the Carbonate Mining Company, and took the matter under advisement until the motion to remand to Judge O.is' Court at San Bernardino shall be dispessed of.

The matter was argued by S. O. Houghton, Esq. for the defendant, and F. R. Willis, Esq. for the plaintiffs, and the parties were granted twenty days time in which to file points acd authorities pro and con. n the United States Courts of this district

The third of the cases against Henry Edelman was yesterday set for trial by Judge Simith for July 8 next, at 10 o'clock.

In Department Two yesterday Julius Lyons filed a petition for letters of administration to the estate of Miss Lena Schroeder, who died on Mây 28 last in this city, leaving personal property valued at \$150, consisting of each in savings bank and wearing apparel.

In Department Three of the Superior Court yesterday Judge Wade denied the motion for a new trial in the case of Mrs. Dolores C. Jackson against John E. Jackson, which was recently tried, and decided in the same court, the marriage being annulied and the property divided.

The demurrer interposed to the complaint in the case of Marie M. La Pierce against Armand La Pierce, a suit to annul a decree of divorce, which it is alleged was procured fraudulently, on the grounds that it is ambiguous and does not state facts sufficient to constitute a cause of action, was yesterday overruled by Judge Wade.

The defendants in the case of Peter Verdayner against J. E. How et al., having allowed it to go by defauit, Judge Wade yesterday overruled the California Bank against E. C. The Library Committee reported favoring the acceptance of the offer of the directors of the public library to take charge of the school library. Accepted.

The clerk of the board was instructed to advertise for bids for printing and supplies. The Finance Committee audited the following bills, which were ordered paid: \$19,048,95.

The Teachers' Committee reported that they have secured the use of the Los Augeies. Theater for the High-school exercises for the evening of the 24th inst.

Mr. Gaffey then called up his motion to reconsider the motion of Mr. Marsh at the last meeting to change the rules governing the acts of the Tecuers' Committee, who now have the whole say as to who shall hold positions as teachers in the city schools. The motion met with opposition on the pirt of the Teachers' C immittee, and Mr. Davis furnished an article showing how teachers are appointed in other places, and when on to Show that the Superintend. how teachers are appointed in other plac and went on to show that the Superinten

¡From the Memphis Appeal-Avalanche.]

¡The work of the Souvenir Edition of the Memphis Appeal-Avalanche? has never been excelled by any lithographic establishment in America. It was a triumph of lithography and press work, and has attracted the admiring attention of experts throughout the United States and Europe. The resources of the house are unsurpassed, and in the west unequalled. The establishment is a vast hive of busy people—artists, compositors, pressmen, binders, clerks and other employés, constituting an army of skilled workmen. Its organization is such that work is done with extraordinary rapidity, and with all the resources that large capital can secure. The Souvenir Edition of the "Memphis Appeal-Avalanche" is an elequent witness of the superior advantages enjoyed by the August Gast Bauk-Note and Lithographic Company of St. Louis.

UNION PACIFIC MEN RETURN.

What the Electric Road is Doing-The Matter of Freight Rate Reductions-General and Local.

The San Francisco Chronicle says that Sidney Dillon, S. H. H. Clark and other Union Pacific officials who were expected to visit that city have changed their minds, as it was learned at the local offices that they went east on Sunday from Portland, presumably to be present at the Transcon-tinental Association's meeting. While in the North President Dillon said that the Union Pacific would build from Portland to Tacoma as soon as the money market be-came easier, if not this fall then next spring. Of the Great Northern's connection with the enterprise he said that the company was interested in the Puget Sound Portland line, and would use the Union Pacific track between Tacoma and Portland. The Union, Pacific has spent \$2,000,000 in the Sound extension, and has not, accord-ing to Sidney Dillon, any intention of abar-

doning it.

Assistant General Freight Agent Sproule of the S tutiern Pacific has drawn attention to the premature circulation of statements relative to freight rate chances. The freight rate committee at Chicago has recommended several modifications, and some of the down-town agents have jumped to the conclusion that these will be adopted. As all the rates have to be revised by the Tr nscontinental Association at its general meeting in Chicago this week, it is very likely that many alterations in the modifications recommended will be made.

To the homorable Council of the city of Los Angeles—GENTLEMEN: I beg leave to report as follows:
First—The ordinance of intention to open Santee street, between Ninth and Sixteenth streets, was published on May 8, 1891, the notice of public work on May 18, 1891; the time for protest expired on June 2, 1891; the time for protest expired on June 2, 1891. the time for protest expired on June 2, 1891.
No protest have been received. It is tuerefore in order for the Council, if it sees fit, to
pass an ordinance proceeding with the work
and appointing commissioners.
On motion of Councilman Alford, the

On motion of Councilman Rhodes the ules were suspended and the ordinance

adopted.
Third—On April 13, 1891, the city entered into a lease with I. N. Mendenhail for reservoir site No. 6, fronting on Soto street, containing thirty-two acres, the consideration being \$75, to be paid in advance. Mr. Mendenhail has \$50 on deposit with the City Clerk, but h s not paid anything into the city treasury as yet, nor taken his lease, although I am informed he is in possession of the land.

the city treasury as yet, nor taken his lease, although I am informed he is in possession of the land.

FREEMAN G. TEED. City Clerk.

On motion of Councilman Rees, the matter was referred to the Land Committee with instructions to collect the balance.

The City Auditor's report, stating that he had examined the monthly report of the city efficient, and certifying that all moneys reported collected by them had been duly deposited with the City Treasurer, was received and filed.

The report of the Board of Public Works, which we spublished in full in The Times on Saturday last, was adopted as read.

The draft of a contract between the city and Roeder Bros, for the repairing of all sprinkling hydrants for one year for \$385, was read, and the accompanying bond with Robert D. Coates and Henry J. A. Stuhr approved, and the same having been approved, it was referred to the Mayor for his signature on behalf of the city.

The report of the City Attorney was then read and disposed of as follows:

CITY ATTORNEY'S REPORT.

To the honorable City Council of Los
Angeles City—GENTLEMEN: Before I can
draw an ordinance vacating Broadway between Tenth and Eleventh streets, and the strip of land on the east side between Ninth

me to have an accurate description of this strip, which can only be made by a survey upon the ground.

On motion of Councilman Rhodes the City Enginer was instructed to make the necessary survey and furnish the City Attorney with a map thereof.

My attaction has been lately called to the

necessary survey and turnish the City Attorney with a map thereof.

My attention has been lately called to the fact that the report of the commissioners for the opening of Third street does not assess any of the cost of the opening upon a two-foot strip of land which lies upon the south side of Wall street and between the line of W li street and the land of Gyoneich. It appears that when Judson, Mills and Morgan subdivided the land adjoining Gyoneich that they gave a thirty-foot strip for Wall street and desired him to do the same, which he refused to do. Whereupon they reserved the two-foot strip in question and still own the same. The map given to the commissioners failed to show the existence of this two-foot strip, and they knew mething about its existence until long after they had made their report and the same had been confirmed by the Council. Under the decision of the Supreme Court in the Davis case their failure to assess any cenefits upon this strip invalidates the whole assessment, and the report having been confirmed by the Council and passed into the assessment, and the report having been confirmed by the Council and passed into the hands of the Street Superintendent, and nearly all the assessments having been paid, it is too late to make the correction. In view of these facts I think it would be anjust to the parties who have paid their assessments to tie up their money pending an attempt to uphold the assessment, and I therefore recommend that the commissioners and Street Superintendent be instructed to return all moneys paid in as assessments, and that all of the present proceedings be abandoned.

abandoned.
Councilman Rees moved to refer to the Board of Public Works, but Councilman McGarry moved as an amendment to refer to the Finance Committee, which was lost by a v-te of 6 to 3. The original motion as amended on motion of Councilman Rhodes, by adding the City Engineer, was then carried.

by adding the City Engineer, was then carried.

In regard to the communication from the Los Angeles County Horticultural Commission requesting that C. H. Heintz be appointed truit inspector for the city of Los Angeles in place of Thomas Weiss, who is no longer in the service of the commission, I find that by ordinance No. 758 the office of fruit inspector for the city w s created, said inspector to be appointed by the Council and to hold office during its pleasure, and to receive such salary as should be paid by the county of Los Angeles. I understand that Mr. Weiss was subsequently appointed such inspector by the Council, and according to the terms of this ordinance can be removed at your pleasure.

the terms of this ordinance can be removed at your pleasure.
On motion of Councilman Tufts the office of fruit inspector was declared vacant, and C. M. Heintz was thereupon appointed.
In accordance with your instructions I have prepared and herewith present a lease between the city and B. Weller for certain land in East Los Angeles for two years at \$60 per month. Also an ordinance repealing certain ordinances heretofore passed for the opening of certain streets. Also an ordinance granting permission to property-owners to grade and curb Fourth street between Wail and San Pedro streets.

A QUESTION OF PHYTLEGE.

Councilians McGarry arose to a question of personal privilege at this juncture, and in reply to an article published in The Times over the signature of Alexander Weiss yesterday morning, in which he had been stateded in his official capacity, made been stateded in his official capacity, made used his influence as chairman of the Board of Public Works for the purpose of repairing Alameda street, between Eighth and Ninth streets, so that the storm water which ran down that thoroughfare in the rathy season should be diverted from the west side of the street, on which he owns property to the opposite side, was utterly without foundation in fact. He had not directed where or how the ditch should be filled and the grade is now just as life was established a long time ago. The ditch used to run along Alameda street parallel with the front of his property, but as it was dangerous, and a great observed the state of the Council and the Board of the Council and the Board of the Council without dissent.

He would be very sorry to interrupt the board control of the Council and unanimously recommended that the ditch be filled up and the street put in repair. This report had been adopted by the Council without dissent.

He would be very sorry to interrupt the proceedings of the Council in order to repeil any attack of a private nature; but as this was a public matter, striking at his official reputation, he felt justified in making his actions clear, and denouncing it as a malicious attack publicly and officially.

Mr. Weiss, who was in the lobby of the Council chamber, rose to reply, but contend himself with informing the Council that he had a petition before that body, which he would like to have acted unon. The matter was finally referred to the Council than the had a petition before that body, which he would like to have acted unon. The matter was finally referred to the Council than the had a petition before that body, w

BIDS FOR LUMBER.
As only one bid for the furnishing of As only one bid for the furnishing of lumber to the city officers for one year was received, viz.: that of the Western Lumber Company at \$25 per thousand, the clerk was instructed to re-advertise on motion of Councilman Rhodes. President Bousail remarked that it looked as though a combine had been formed against the city, and Councilman Nickell stated that he could go out upon the market and buy lumber at \$2.50 per thousand less than the price bid.

Shortly afterward, however, the bids of Kerckhoff-Cuzner Lumber and Milling Company were brought up from the cierk's office, and all three were referred to the Supply Committee, after Mr. Rhodes' motion had been rescinded.

The following bids for the work upon the approaches to the Walbut-street bridge were received and referred to the Bridge Committee: J. D. Mercereau, \$3300; A. E. Leubetter, \$285.76; A. E. Meigs, \$2850; G. L. Bates, \$2466.61, and D. R. Parkes, \$2290.

STREET WORK.
On motion of Councilman Summerland
the Superintendent of Streets was directed
to place gravel where it is needed on Wilmington between First and Requens streets, Messrs. Alford and Bousall voting neg-atively because no estimate had been made as to the cost.

The bids of J. T. Davis for the grading of

The bids of J. T. Davis for the grading of Eighteenth street, and Lovie, Dodd & Co., for the sidewalking of Grand avenue, were referred to the Board of Public Works. President Bonsall then resigned the chair temporarily to Councilman Rees in order to move that fire alarm boxes be placed at the corners of Seventh street and Union avenue, Arnold street and Lucas avenue and Bonnie Brae street and Suuset avenue, remarking that he had investigated the matter and was satisfied that they were needed. The matter was referred to the Board of Fire Commissioners.

The usual batch of requisitions was then read and allowed; but that of the Street Superintendent for a typewriter at \$100 was

denied.

The usual number of petitions were referred to their proper committees.

On motion of Councilman Rees the Los Angeles Consolidated Electric Railway Company was required to move the blocks laid between its tracks at the crossing of Fourth and Main streets and relay the pavement with asphalt as it was before they excavated it.

At 11:30 o'clock the table being cleared, a recess was taken on motion of Councilman Rhodes until 2 o'clock p. m.

Afternoon Session The Council met at 2 o'clock with President Bonsall in the chair and all the members present except Councilman Tufts, who came in a few minutes late.

gentleman acting as Superintendent of Buildings can, in addition to his present duties, also perform whatever duties the Mayor might find for a cierk. We have, therefore, so provided in the ordinance, and hope the Mayor will cooperate with us in our efforts to reduce the expenses of ruaning the city by dispensing with his cierk, now drawing a salary of \$1500 per annum. This change would also vacate a room in the City Hall, now occupied by the Superintendent of Buildings.

In the health department, we have dispensed with two saultary inspectors and police surgeon, as the ordinance provides that all policemen shall act as s-intary inspectors, and that the Health Officer shall perform the duties of police surgeon.

In the street department, the ordinance dispenses with the services of "outside deputy," two street inspectors, the Superintendent of Sewers, Inspector of Street Sweeping and three gang foremen.

We believe that the ordinance provides a sufficient force to do the work provided, the superintendent, and those retained are as active as would be necessary, if employed in a private capacity.

The reading of the ordinance proceeded without interruption to the close, when Councilman Nickell moved that the committee rise and report the ordinance to the Council, with the recommendation that it pass.

This motion passed without debate, only Gouncilman Summerland voting in the negative, and the committee rose and Prespicient Bonsail resumed the chair.

Auditor Lopez then made a statement of the fin ances of the city. Mr. Lopez said that when he had given the figures of the previous year. Since that time he had received the figures, and the result was largely in favor of the city. Mr. Lopez said that the expenditures from January to May, 1990, were \$185,777.13, whereas those for the corresponding period of 1851 were \$132,890.23, making a difference in favor of the city of \$2,886.91. The general funds, he said, were in much better shape than a year ago.

THE battle of the baking powders is waxing very warm in this section.

A Young Sicilian, who came to Chicago on World's Fair business, fell in love with Miss Nina Van Zandt, who wanted to marry the condemned Anarchist, Spies, and did marry him by deputy. Sicilians seem to gravitate naturally to anarchy, tempered by as-

THE agreement between the United States and Great Britain in regard to a closed season for sealing in Bering Sea, has been rushed through with great expedition, and the President has issued a proclamation in accordance therewith. Orders are now in preparation for the dispatch of two essels from San Francisco to Alaska, where they will assist three revenue cutters in the task of driving off poaching sealing vessels.

The Admiral did not say about the United navy, perhaps because he did not know

THERE is a boom in miracles at present. A Pittsburgh monk is attracting thousands of invalids and cripples, and another priest in Montreal is said to have been cured of longstanding paralysis after nine days' of prayer. In the latter case it is explained that the doctors gave him up, which may have had something to do with his recovery. It is also probable that the fasting which accompanied his season of prayer may have helped to make him feel better. Miracles have to be very well attested now-a days to obtain any credence in this country.

E. W. MASLIN, manager of the State Board of Trade, writes as follows to

I beg to return thanks for your notice of the State Board of Trade. You say "If is conducted on a strictly non-sections basis the exhibit is deserving of warm sup port." I hasten to assure you that there basis the exhibit is deserving of warm support." I hasten to assure you that there is no sectional bias on the part of any member of the board. If a county does not send literature we cannot distribute any. We can only send such as we have. We have plenty of pamphlets about Los Angeles, and always send one when Caifforni, literature is called for. It is only two weeks ago since I sent to the secretary of the Chamber of Commerce for the admirable bulletin issued by it showing the profit of fruit culture by examples.

This is reasonable enough. The board can only halp Los Angeles.

ENTERED AT LOS ANGELES POSTOFFICE AS SECOND-CLASS MATTER WALES'S WORRIES.

> The British Secretary of War has announced in the Commons that no further action will be taken by the military authorities in the baccarat affair, the Prince of Wales having "seen an error of judgment was committed" and Lieut. Levett having written a letter to his commanding officer expressing deep regret, while Gen. Williams being on the retired list is

While the Prince has thus escaped official censure, there is plenty of fur-ther trouble in store for him. Lord Brooke has apparently become tired of playing the complaisant husband, and will bring suit for divorce, with the Princesas co-respondent. This promises to create a scandal worse than the celebrated Mordaunt case, and may prove the finishing touch which will overburden the endurance of the Brit-

The Prince is evidently deeply in the mire. It will be remembered that a day or two ago he had young Wilson admitted to the Marlboro Club. An explanation of this is probably found in a dispatch which states that Arthur Wilson, at whose house the baccarat game was played, recently loaned Wales \$1,000,000 to help him out of his

financial difficuities.

The Prince of Wales is no worse than many other men about town on both sides of the ocean, who, having nothing to do but spend money and enjoy themselves, but to whom much has been given, of him much will be required. The heir to the British throne occupies an established position and should bear this in mind. If he fails to do so, he must not be surprised at complaints from those who pay his salary.

Stranger things have happened than that this baccarat scandal and its after developments should lead to the down fail of monarchical government in England. It would not need much of change. As the Paris Temps says, England is today as republican as France or the United States, and to do away with royalty and the Prince of Wales would merely be changing the name without altering the subject,

GEN. CHIPMAN NOT CONFIRMED.

A Chicago dispatch sent to the Chronicle on Saturday, foreshadowed what has since occurred—the rejection of Gen. Chipman's appointment by the World's Fair Board of Control, owing to friction between that body and the National Commission. This is to be greatly regretted. Gen Chipman was the cheice of California he is a good man for the place, and

The Chronicle thus explains Mr. de Young's position on the question. The statement corresponds with our remarks of yesterday.

remarks of yesterday.

As the Chronicle has already explained on more than one occasion, the original choice of National Commissioner de Young for the position was Gen. Chipman, and his subsequent support of Mr. Maxwell was not due to any discoyality to Gen. Chipman, but to the fact that Mr. Maxwell seemed to be the only Californian who had a chance. Mr. de Young was for a Californian for the headship of this bureau, first, last, and all the time, the importance of the appointment to the State outweighing any personal considerations that might otherwise have intervened,

M'KINLEY AS A PRESIDENTIAL POSSIBILITY.

It is a frequent remark in eastern papers just now that McKinley's election as Governer of Onio-which is taken as a foregone conclusion-will make him a national figure and give him a prominent place in the list of competitors for the Presidential nomination in 1892. The St. Louis Giol .-Democrat has this to say on the sub-

In the National Convention of three years ago McKinley had many admirers, and had he dropped John Sherman and consented to become an aspirant for the nomination he would have obtained a heavy vote. He election to the Governorship this ye r wi make him more prominent than ever before, and give him a standing in the party beside its two or three most conspicuous and popu-lar men. The only men who will rank him its two of three most conspicuous and popular men. The only men who will rank him in these particulars, as the situation is viewed today, are Blaine and Harrison, and there are doubts as to whether Blaine would accept the nomination in any event. Thus the Ohio statesman becomes, in a larger degree than ever before, a national figure. Outside of the two we have mentioned no other Republican is likely to command so much of the party confidence or arouse so much of the party confidence or arouse so much of the party confidence was no test of the party feeling toward him. His district had been gerrymandered against him by the Democratic Legislature, and an anti-Republican tidal wave swept the country. He polied more than the regular party oue, however, and the Republican opposition to his tar ff measure in the West will probably all have subsided before next November. For these reasons the contest in Ohio this year will take on the proportions of a national event, and will be followed with interest by the people of the entire country.

The City Council, vesterday, passed

THE City Council, yesterday, passed a rather sweeping retrenchment ordinance, abolishing some offices and reducing the salaries in many others. While the persons directly affected will, of course, not approve of the amber of Commerce should see that change, it is undoubtedly to the interests of the citizens at large, and will meet the approval of the taxpayers, many of whom, just now, have hard work to make ends meet. In the course the talk, Mr. Hinton intimated that, un the law, he had a right to into a bank and examine the bo into a bank and examine the books to verify the statements, when Mr. Spencrepiled that the relations between a bank and its depositors were of a sacred and confidential nature, and if the Assessor tried to come into his bank he would take a club to him, and intimated that Mr. Hinton was trying to pry into the affairs of the banks from sinister motives. Mr. Hinton was trying to pry into the read to Mr. Spence, and after some further talk the conference ended. There was also a short p.ssage of words between Mr. Arnold and Mr. Hinton, but it soon passed.

27 publishes a double-page cartoon of Grant, Sherman, Sheridan, and Lee, Jackson, Johnson.

The animus of the cartoon is to place Lee, Jackson and Johnson before the rising generation as men in every respect worthy to be honored by a patriotic people, as compeers of Grant, Sherman and Sheridan.

To this sentiment, as expressed by the sapient editor in his comments on the cartoon, I wish to say a few words through the columns of your paper. Patriotic men and women cherish the Patriotic men and women cherish the memory of Grant, Sherman and Sheria young and growing nation, and they are honored, because to them, in later years, was committed the herculean task of conquering a peace and main-taining order over a misguided and rebellious people.

How well these men discharged the

onerous duties laid upon them by a stricken nation, is a thrilling story, graphically told on history's pages, and read by intelligent, patriotic men and women throughout the civilized world. In the language of the editorial com-ments referred to, "What was the end ments referred to, "What was the end of the war?" that Grant, Sherman and

Sheridan sought?
Surely it was not "The poor, mean joy of seeing their kin overthrown. a nobler stature than the world had known.

February 22 the first formal service of worship was conducted by two Buddhist priests in the large salon of the Museum for comparative religious history. It consisted of a kind of mass to the honor of the great master Ken-Sin, founder of the sect Sin-Sin, which possesses today 19,000 temples. Before the little Buddhist chapel stood ontending factions.
On the other hand, patriotic men and women cannot honor Lee, Jackson and Johnson. They were unworthy wards of a beneficent nation, violating their oath, renouncing the service and betraving their country in the hour of its

greatest need.

With particidal intent they unsheathed the sword and marshalled a misguided people, with dire purpose, to destroy a government bequeathed to

the people by our fathers.

And for what "Was the end of the war?" that Lee, Jackson and Johnson

'sought?''
It was to establish upon the ruins of
the Republic, a confederacy; the chief
corner stone of which should be a system of involuntary servitude, a system characterized by good men and a Christian civilization as being the "sum of all vifianies." Upon this "sum of all viliainies." Upon this foundation the impious leaders of the rebellion proposed to establish an em-pire, the revenues of which, under the mild persuasive influence of the slave-drivers' lash, were to be drawn from the 'unrequited toil' of millions of men. women and children, to con-tribute to the grandeur and glory of a

southern oligarchy.

In our hearts, emulating the spirit that animated the soul of Grant at Appomattox, turning the awords of the foe into plow-shares and their bayonets into pruning-books, returning to the South, men, bearing the peaceful em-blems of husbandry. Though defeated and downcast, the inspiration of hope lightened the burden they bore:

"How to earn c'othes for the body,

That was the end of the war The fight for the Unio 1 done, And a great one country ready For a new life fresh begun." In conclusion I ask:

"Who is the traitor today?
The traitor to Nation and State?"
He it is who wakes the ghost of re bellion, asking the Nation to strew blossoms and flowers' in memory of men who deeply corrupted themselves in the days of nullification and seces sion. Ask not patriotic men, women and children to weave garlands and sing praises to Lee, Jackson and Johnson. To do this would be a shame and 'a wrong to themselves.'

VETERAN. Los Angeles County Cherrie ACTON (Cal.,) June 13, 1891.-[To the Editor of THE TIMES. | Allow me to call the attention of your many readers to an exhibit of cherries no in the Los Angeles Chamber of Com Southern California, and we have hith erto obtained our supply from more northern counties. Believing, how-ever, this section of Los Angeles county sufficiently elevated, and possessing every other essential necessary for the successful growth of the cherry and other deciduous fruits, several en terprising ranch-holders set out, two three years ago, a few acres in assorted fruit trees. Already their hopes have been abundantly confirmed—all the trees (except those of the citrus family,) doing remarkably well. Many only three years old are laden with large, choice fruit. Apricots and cherries are especially worthy of mention. At an elevation of 3000 feet we have

sufficient cold in winter to insure the blossoms from premature exposure and to give the flavor so much prized. The specimens on exhibition were

grown without irrigation, and were not confined to one grower or one ranch. At least four localities, each two or three miles apart, are repre-sented, and if fine thrifty trees, having made rapid growth and producing so soon such specimens are worth anything as signs of what we may expect in the future, everything points out this neighborhood as the natural cherry growing district of Southern California.

A visit to this small but thriving community and an inspection of our young orchards will convince the most skeptical of the truth of these

most skeptical of the truth of these statements.

I would mention three fruit-growers here especially, whose ranches should be visited by any interested person—Messrs. Melon, Davidson and McPhetridge. Each will be glad to see visitors and give all the information in their power relative to the subject.

One important thing I must not omit—and that is that land here is cheap. Some vacant' Government land yet remains. Claims can be bought very reasonably, and patented acre property ranges from \$5 upward.

We are not in Antelope Valley, as some may suppose, our climate and rainfall being very similar to that of Los Angeles, and so conveniently are we located in respect to that city that fruit can easily be gathered and placed on the market by 3 p. m. on day of hicking a features. A Proclamation from the President Declaring a Closed -eason.

The Whole Dispute Now in a Fair Way to Arbitration.

Orders Issued to United States Ves sels to Enforce the Compact and Suppress the Seal Slaughter.

By Telegraph to The Times.

WASHINGTON, June 15 .- [By the Associated Press. | The agreement for a closed season in Bering Sea was signed this morning. The President then issued a proclamation, stating the agreement for a modus vivendi between the Government of the United States and the government of Her Britaunic Majesty, in relation to the fur seal fisheries in Bering Sea, concluded on the 15th day of last June. It reads:

fisheries in Bering Sea, concluded on the 15th day of last June. It reads:

For the purpose of avoiding irritation, diff rences, and with a view to promote frieudly settlement of questions pending between the two governments to using their respective rights in Bering Sea, and for the preservation of the seal species, the following agreement is made without prejudice to the rights or claims of either party:

"Her Majesty's government with prohibit, until May next, seal killing in that part of Bering Sea lying eastward of the line of demarcation described in article No. 1 of the treaty of 1867 between the United States and Russia, and will promptly use its best efforts to insure observance of this prohibition of British subjects and vessels. The United States Government will prohibit seal killing for the same period in the same part of Bering Sea and on the shores and is! indisthereof, the property of the United States, in excess of 7500 seals to be taken on the islands for subsistence and care of the natives, and will promptly use its best eff ris to insure observance of this prohibition by the United States customs vessels. Every vessel or person femding gainst this prohibition in said waters of Bering Sea outside the ordinary territorial limits of the United States may be seized and detained by naval or other duly commissioned officer of either of the high contracting parties, but they shall be handed over as soon as practicable to the authorities of the nation to which they respectively belo g, who shall at once have jurisdiction to fix the offense and impose penalities for the same. Witnesses and proofs necessary to establish the offense shall be sent with them. In order to facilitate such proper inquiries as Her M. jesty's government may desire to make, with a view to presentation of the case, that an agreement for arbitration may be arrived at, it is agreed that suitable persons designated by Great Britain will be permitted at any time, upon application, to visit or to remain upon the Seal Islands during t

Pauncefote, Envoy Extraordinary and Minister Pienipotentiary."

Now, therefore, be it known that I, Benjamin Harrison, President of the United States of America, have caused said agreement to be unde public to the end that the same and every part thereor may be observed and fulfilled with goof faith by the United States of America and cutzens thereof.

In witness whereof I have hereunto set my hand and cutsed the scal of the United States to be affixed.

The arrangement indicated in the above proclamation was carried to completion with a degree of speed without precedent in the history of the State Department, and the cable has been relied upon to an unwonted ex-tent. The agreement was signed this morning by Sir Julian Pauncelote and Wharton, and the Presidential procla-mation followed as quickly as as it

could be prepared.

The Navy Department has been ad-The Navy Department has been advised of the case and orders are now in preparation for the immediate dispatch of probably two naval vessels from San Francisco to Alaska, where they will assist three revenue cutters in the task of driving off posching sealing vessels. It will be noticed the agreement authorizes the United States vessels to

thorizes the United States vessels to seize the offending British vessels, which, however, are to be turned over to the British authorities for trial, and this feature of the agreement is expersease genergency that is held to ex-ist of clearing out the law-breaking vessels before irreparable damage can be done to the seal fisheries.

HOW THE RESULT WAS EFFECTED. The Department of State this afternoon made public the latest correspondence on the subject. It began with a note of June 3 from Sir Julian Pauncefote in reply to Secretary Blaine's letter of May 4. Sir Julian replied with amended draft of an agreement which differs from the one agreement which diliters from the one signed today in covering, by the inter-dict against killing, the whole of Ber-ing Sea and its islands. It also pro-vided for British consuls to go to the Islands this summer, and that the convention should not come into operation unless Russia's consent was obtained.

In reply the President offered a proposition suggesting such changes as would give to the modus vivendi the same territorial extent with the pending proposals for arbitration, and see that the stipulation for the prohibition of killing upon the islands of the United States would rest upon its own order and the obligations of the respective governments to give prompt and vigorous effect to the agreement might be more clearly apparent. The President stated that no British consular function could be exercised in the Bering Sea islands, but reasonable facilities might be extended to Great Britain for investigating at the islands any facts involved in the controversy to be arbitrated. The bringing of Russia into the affair at this time would prove simply prohibitive of an agreement upon the modus vicendi, and could not be granted by the United States. The suggestion that either power might arrest violat-ors of the agreement, be they British or American, is then made by the President.

On June 6 Lord Salisbury's reply was received. He accepts the President's suggestion as to the arrest of poachers and turning them over to the power to which they belong, but thinks that Britian should have a consul on the islands to see that no more than 7500 seals are taken. This is regarded us indispensable, and in lieu of a consul he asks that a British agent may be specifically authorized to reside on the islands. The demand to take Russia in he withdraws, but urges that the interdict should apply to all Bering Sea and urges that the terms of arbitration be settled simultaneously.

In reply the President stated that the limitation of killing seals is absolutely within the control of the United States as a daily count is made by sworn officers. This Government could not of course, consent to any arrangement that implied doubt of its good faith or involved foreign supervision. The On June 6 Lord Salisbury's reply was

DIPLOMACY WINS.

President, however, was quite willing to agree that England may send to the islands with a view to collecting facts involved in the arbitration question. The suggestions of this reply are then embodied by the President in a proposition covering the agreed points and President's suggestions as amendatory, the limit line of final agreement being included and permission stipulated that

limit line of final agreement being included and permission stipulated that Britain may send suitable persons to the islands for the purpose named.

This was cabled, and two days later Lord Sansbury replied with a counter proposition, adding to the agreement for taking 7500 seals these words: "To be taken on shores and islands as food, skins, and not for tax, for shipment."

The President in reply declares this to be an extraordinary proposal and not a clear one. "This new condition," he says, "is entirely inadmissible and inconsistent with the assent already given by Her Majesty's gov-

already given by Her Majesty's government to the proposition of the United States in that behalf." The United States in that behalf." The President is surprised that it should now be suggested that none of the skins to be caught should be removed from the islands and cannot understand how British interests can be promoted by allowing them to go to waste. Regarding the British claim that the interdict shall cover all the Bering Sea shores the President points out that the shores and islands belong to the United States, being within the territorial limits, and any mutual policing of United States territorial waters, its undisputed property, involved an inundisputed property, involved an in-superable difficulty on our part and a concession which no independent government could be expected to make.

The President once more formulates the agreed points and his own views as formulated on others. This letter bore date of June 6, and proved to be the ultimate form of agreement which was signed to-day. It was c-bled to England, and in the interim before Lord Salisbury's reply, Paunce ote wrote to the State Depart rance of the state Department, urging the conclusion of the terms for arbitration, and supplements Salisbury's "for tax and shipment" suggestion relative to the 750 skins to be taken by the United States. On the 10th Lord Salisbury's final re-ply was received, in which he accepts the President's form of agreement, uttering some objections, however, which are not pressed. He accepts, though on condition that United States give assurance in some form that they will concur in a reference to a joint commission to ascertain what permanent measures are necessary for the preser-vation of the fur seal species in the northern Pacific Ocean. On June 11 the State Department

responds, agreeing to the appointment of a joint committee, such agreement to be signed simultaneously with the convention for arbitration, and to be without prejudice to the questions to be submitted to the arbitrators. In the same communication the President names Monday, June 15, as the time for signing the agreed proposals, and Paunce ote was notified accordingly. ORDERS TO THE CORWIN.

One question that he proposes to discuss is that of sealing and the manner in which British Columbia interests are affected under the new sealing law which has just passed the British House of Commons. ELECTRIC DYNAMOS.

MACHINERY THAT CAUSES THE AL-TERNATING CURRENT.

omparison Between the First Frictions Wheel and the Present Powerful Electro-Magnets-Difference in the Two Currents-The Machine.

The first dynamo electric machin ever constructed was made by Faraday. This great physicist, the prince of ex-perimenters, as he has been called, discovered that when a disc or flat plate of copper was made to rotate between the poles of a powerful magnet currents were produced in the plate from the center out-SEASIDE ward. By making a wire touch the re-volving plate with one of its ends and bringing the other one in contact with the rim he found that a current of electricity passed along the wire, and could be made to indicate its existence by deflecting the needle of a galvanometer, decomposing a chemical solution, or by any of the well known effects produced

Faraday saw the importance of this covery and the great uses in the way of practical application to which it might be put, but he did not himself stay to develop it; he left that to others, and with it the wealth which might thus be acquired, and himself went on to investigate other obscure and little known phenomena connected with physofficers concerned, Gen. Williams was a retired officer of the army, and was therefore not subject to the regulations. many years afterward he went to see the first application of this discovery of his to the production of the illumina-tion of the North Foreland lighthouse, he said, after looking at the large magneto-electric machines there, "I gave it to you an infant; you have made it giant."

Dynamo and magneto electric machines consistessentially of a coil of wire

"the armature," as it is called—rotating between the poles of a large mag-net, the poles being bent round so as to approach each other and have the arma-ture between them. This magnet may be either a permanent magnet of hard steel, or an electro-magnet consisting of wire coiled round a soft iron core, a cur rent of electricity being made to circle round the wire coil, and thus magnetizing the iron core while it lasts. It is the latter arrangement which is almost universally used now, though the magneto machines with permanent magnets were the earliest form.

THE ELECTRO-MAGNET. A magnet produces an influence in the neighborhood around it, and this surrounding neighborhood is known as the "field of force" of the magnet—i. e., the sphere in which its influence can be felt. A magnetic needle or bit of iron filing placed in this field sets itself to point ong the "lines of force" of the fieldthat is, the lines along which the magnetic force acts, and which form curves

round the magnet, running out, as it were, from pole to pole, and curving round to the other. Any one may see the form of these lines of force for himself by placing a bar magnet underneath a sheet of paper and then sprinkling filings on the paper.

On tapping this the filings will set themselves along the lines of force in

beautiful regular curves. Here the small fragments of iron are themselves made magnet while under the influence of the powerful magnet in whose "field" they are, and therefore place themselves lengthwise along the lines of force—that is, along the line of action of the resultant magnetic force at the place where each one is.

When a coil of wire or armature is made to revolve rapidly in the strong field of force which occupies the space between the poles of a powerful electromagnet currents are produced in the coil. These currents alter their direc-These currents alter their direction through the coil every time the latter changes its position with reference to the poles of the magnet. The side of the coil, which was opposite the north pole, is after half a revolution opposite the south pole, and the influence of the south pole tends to produce an opposite current to that of the north pole. Here Sale posit ve and without reserve. we have an "alternate current" dynamo

PROCESSES OF USING THE CURRENT. As the coil or armature rotates with great speed—some hundreds of revolutions per minute—these currents, in alternating directions, succeed each other very rapidly, and if an electric arc lamp s placed on the circuit it will be lit up. In this case it is not necessary that the current be sent round the circuit in one direction only, but although the terminals of the lamp are constantly changing their polarity—that is, the north pole the current enters the next instant becomes the south pole where the current leaves—yet, as this occurs many times in one second, the effect produced is the same as if the current was in one

uniform direction. The lamp has no time to cool; it does not go out before the oppositely directed current passes through it and produces the same effect as the previous one. No flickering is observable. The impression produced by the glowing carbon on the human eye is retained by the zetina for a far longer period than the duration of one surge of electricity through the lamp, and is not gone before the effect produced by the succeeding opposite vave makes its impression on our

In a "continuous current" dynamo, which is necessary for some purposes, such as electro-plating, where the effect desired could not be produced if the direction of the current was continually altering, the electric current is made to pass always one way round the external circuit. This result is got by using the ingenious device of a commutator, which hutomatically deflects the current so as always to send it in an unvarying direction through the plating bath or the electric lamp, as the case may be.—

SAN FRANCISCO MARKETS.

SAN FRANCISCO, June 15 .- [Special to THE TIMES.] The produce markets were generally quiet for mostly all kinds of cereals this morning. Wheat, oats and corn continue very dull and prices are weak. The barley market is fairly active, but prices of new feed are weak and lower, owing to heavy receipts. Choice new feed sold at \$1.27% per cental, and down to \$1.221/4@1.25 per cental for fair to good quality. The prices of bran and middlings advanced 50 cents per ten. Ground bariey is irregular and lower. Other mili-stuffs are

nchanged. Hay was weaker today, owing to heavy Hay was weaker today, owing to heavy receipts.

An kinds of summer fruits are plentiful. The market was fairly active with few changes in prices. Peaches were in heavy supply, but the bulk of them were hard and poor. Cherries were dull. Currants opened with suiff prices, but weakened off. Apricots were easier and in better supply. Vegetables moved off fairly weil this morning, with smoderate arrivals. Vacaville beans are not so much sought after now, they being poor. Sales have been made to factories as low as 1½ cents per pound. Garden beans were taken in preference at from 2½ to 3 cents. Onions were firm and good. Silver skins find a ready market at \$1.15 per box. Potatoes were firm under good eastern shipping demand. In dairy produce the market was steady for better grade eggs and butter, and quiet for inferior grades.

leries were literally packed with people, hundreds standing in the rear.

The exercises opened with an overture by the Harmony orchestr, which was followed by the salutatory, very gracefully delivered by Miss Josie V. Welden. An address by Mayor Hazard followed, and after a vocal solo, finely rendered by H. S. Williams, came the oration by Charles M. Benbrook, on "Success in Business," which showed conclusively that the young gentleman had very practical ideas on this important subject. After another selection by the orchestra, Hon. E. F. Spence gave an address. He spoke from the standpoint of a successful business man, and his remarks were listened to with deep interest. "I sometimes tell a story," he remarked, as a preface, "but I never before addressed three stories of people," glancing over the crowded house from pit to upper gallery. He gave the young people some excellent advice, and impressed upon them as a central thought, "Do not be discouraxed." He urged them to cultivate individuality, to try to excel in the particular line of business marked out, and, above all, to be self-reilast.

Miss Lena D. Willey gave all her plano selections with teste and skill, and Miss Auna O. Henderson, in her recitations, led her hearers at will from grave to gay, humorous and pathetic—each mood raithfuily depicted by look, tone and gesture. The young ladies will receive their diplomas this exening, when the graduating exercises of the class completing the literary course will occur at Immanuel Presbyterian Church.

LADIES' ANNEX.

Regular Weekly Meeting Yesterday Afternoon--Business Transacted. The regular weekly meeting of the Ladies' Annex was held. yesterday afternoon, but no business of special importance

was transacted. W. W. Howard of the Chamber of Commerce came before the ladies to invite them to participate in the reception to be tendered to the returned delegates from the dered to the returned delegates from the Chicago orange carnival and to the new members of the Chamber of Commerce. He asked that a committee might be appointed to confer with a committee from the chamber as to the nature and the time of the reception. The president, Mrs. C. M. Weils, therefore named Mues, McComas, Luther, Knight and Page as said committee.

Comas, Luther, Knight and Page as said committee.

After a joint meeting the ladies reported that it had been decided to give the reception next Mouday evening, at the Chamber of Commerce. A choice literary and musical programme will be rendered; there will also be speeches of welcome, but the larger part of the evening will be devoted to informal sociability. This reception of welcome will be tendered jointly by the Ladies Annex and the Chamber of Commerce,

An instrumental selection by the Ideal Guitar and Banjo Club of fourteen pieces, under the direction of C. S. delano, followed and was applanded to the ech. In response to the encore the old favorite, "Down on de Suanee Ribber," with variations, was played to the great satisfaction of the audience. Rev. R. S. Cantine was the next speaker, and his extemporaneous address was one of the most entertaining of the evening. He argued that success in business depends on three things: A faste for the business entered upon; promptness, punctuality and pluck; and stick-to-litive ness.

After a vocal solo by Miss Alice D. Austermell, the valedictory was read by Fred A. Stephenson, a bright young fellow whose oratory reflected great credit upon him as a student and prospective business man.

The presentation of diplomas by Prof. George A. Hough brought the exercises to a close.

These springs constinte practically all of the present supply, of which the east-side company owns seven-tenths and the west-side company the remain-ing three-tenths. In summer temporary dams are built across the stream that flows through Devil's Gate, and water is piped to the main not far away. The amount of water thus obesting programme will be rendered at 11 o'clock, and refreshments will folaway. The amount of water thus ob-tained is not large, and in winter the dams are washed away, and the supply from this source is wholly cut off. Hitherto the supply has been ample, but to provide against any possible scarcity of water incident to the town's growth, a plan of further development by tunneling has been decided upon. The tunnel will start in a northerly The tunnel will start in a northerly direction from near where the great body of the water makes its appearance. The work will be carried on under the direction of a competent engineer, and the plan will be to strike the main stream of the springs. Few, indeed, know just where the source of our excellent water system is. The following facts, as obtained from a personal inspection of the places mentioned, in company with two water directors, are likely, therefore, to prove of general interest.

Of course every one knows where the Devil's Gate is. Standing on the sast bluff above, one sees below him to the southeast a steeply-sloping bank, covered with green follage, that indicates the presence of water. No water, however, is visible, and yet from this bank gushes forth an inexhaustible flow that supplies all of Pasadena and suburbs. Royal Secures a Judgment Against Dannison.

END OF A SENSATIONAL CASE

Wade's Opinion Setting Forth in Detail the Points at Issue - History of the Transaction.

Judge Wade yesterday rendered his decision in the case of A. W. Royal against being ordered in favor of the plaintiff. The case was tried and submitted in May last, and at the close of the testimony the Court took occasion from the bench to severely criticise the plaintiff, A. W. Royal, for the manner in which he had testified at the trial of a former suit against Dennison. Fear-ing that he would be arrested for perjury, Royal went away, leaving no clew as to his whereabouts. His disappearance caused a considerable sensation at the time, and searching parties were instituted by his friends for the purpose of finding his body, it being supposed that he had wandered off and died from exhaustion. After an absence of nearly two weeks he was finally located up in the Ojai Valley by Detective Fred Smith and subsequently brought back

by his friends. In rendering his decision yesterday, Judge Wade handed down the following opinion:

THE OPINION. This is an action of ejectment, wherein it sought to recover possession of a certain lot described in the complaint, in which the

disputed questions of fact are about as fol-lows:

Pisintiff contends that the demanded premises were surrendered to the possession of defendant under certain contract of sale, or exchange, by which plaintiff was to reof defendant under certain contract of sale, or exchange, by which plaintiff was to receive a certain interest in a transaction with reference to a piece of property, which for brevity's sake will be designated as the Bryson lot, that consequently the defendant failed to perfect his negotiations in reference to the Bryson lot; there was an agreement by defendant to take the demanded premises at a valuation of \$4000 to be paid in cash. The plaintiff and defendant agreed substantially with reference to the negotiations in regard to the Bryson lot, but at that point there is a decided divergence and disagreement as to the testimony. Plaintiff maintains that as a substitute for the property to be exchanged the lot was to be paid for in cash, and the defendant contends that as a substitute for the original agreement the lot was to be paid for on the conveyance of four lots in the San Pasqual tract. For obvious reasons, which were sufficiently explained at the hearing of the cause, defendant's version of the substituted contract must be accepted as true, and it will be found as a fact in this case that plaintiff agreed to convey the demanded premises to the defendant in exchange for the four lots above mentioned. Another fact in regard to which the plaintiff and defendant disagree has reference to money received by plaintiff from defendant after defendant had taken possession of the demanded promises. Plaintiff contends that the money so received was received in part payment of the Durchase price; while the defendant contends that it was money loaned. In this respect defendant is corroborated by certain receipts taken at the time, in which the money passing between them was acknowledged by plaintiff as a loan from defendant.

Defendant set up an equitable defensa to the action of ejectment, which may be briefly stated as an averment that the demanded premises were purchased by defendant and an averment that the demanded or minses were purchased by defendent and premises were purchased by defendent and premises were p

possession under the terms of the contract to purchase, and that he has ever since remained in possession; also that he has been ever since ready, willing and able to carry out his portion of the contract by conveying to plaintiff the four lots in the Sin Pasqual tract as agreed by him to be conveyed.

This answer seems to be taken by plaintiff, to some extent, as a cross-complaint, but it is not necessary to so consider it. For the purposes of this action it will be governed substantially by the same rules that apply to a bill in equity seeking equitable relief upon the same ground that this matter is set up as a defense. In order to maintain such a defense it is not sufficient for defendant to allege that he has been ready, able and willing to couvey the

presumed that defendant had effered to do all that he can do in the execution of the contract of exchange between himself and plaintiff, and that the evidence introduced has shown his ability to perform in the best possible light. Taking defendant's testimony, however, as true upon all points of dispute between himself and plaintiff, it does not appear to the Court that he has at any time since the commencement of these negotiations been able to carry out the terms of the contract of exchange between himself and plaintiff, however willing and ready he may have been to execute deeds or to tender deeds executed by other persons. Now plaintiff has parted with the possession of his property, for which he has, according to the defendant's testimony, received no compensation whatever; but the possession of the demanded premises being surrendered under a parole contract to convey, at a specific valuation of \$4000, which is admitted on both sides (the only difference between the parties being that the one claims it was payable in cash, and the other in real property.) and there being a failure on the part of the defendant to carry out the terms of the contract on his part, plaintiff is entitled to be restored to the possession of his property unconditionally. He, on his part, has tendered a deed of the premises, and as the only condition of bis delivery of the deed, demanded the payment of the purchase price less the amount of cash he had received from defendant, and notwithstanding the fact that that money was loaned to him, as testified by defendant, he chose to treat it in the light of a payment of the purchase price, and if it were not for the purchase price, and if it were not for the premises of for the payment of the purchase price, and if it were not for the premises of for the payment of the purchase price, and if it were not for the premises of for the payments defendant himself, it would be immaterial to inquire whether or not plaintiff should not have modified his conditions to meet other expenses and payme presumed that defendant had offered to do all that he can do in the execution of the

DR. HONG SOL

Having been sick all my life with stomach, spleen, liver, disease and in head a dizzliness it was very hard to sit up. I was recommended to Dr. Hong Noi; after taking his medicines for two weeks I am entirely cured. I wish those who are sick would try Dr. Hong Soi. February I4.

MISS A. FOSTER, 303 Chicago st, L. A., Cal. Having been sick for about one year with kidney and bowel complaint and anxiety of mind and iailing o decive any benefit from doctors in the last, I resolved to try Dr. Hong Soi. I find after using his medicine for about two weeks, I ame tirely cured.

December 31, 1881.

One year ago I was taken sick. Dr. Hong Soi cured me of a spleen, liver, stomach and blood disease in feur weeks. I have been perfectly healthy and have worked hard ever since. November 24, 1890. a year with great distress in the stomach and frequent vomiting of clear water. Was so weak was not able to be off my bed sand was rapidly grown bescenses. I have been year of the stomach and was rapidly grown bescenses. So I though I would try something the sand was read and treduced the complete physician had ever troubled in the same way tred and was rapidly grown bescenses, by so and the same was tred and the complete physician had ever troty followed his instructions in regard to diet. Cut. for six weeks week was lot to the lock.

ing more pain from foot froubles than from any other cause, and our duty to the borse calls upon us to give him all the relief possible. No foot can get sore or give out while wearing these pads, and the horse soon shows his appr-ciation of them by his light elastic step, and willingness to do his work, and will also greatly improve in appearance on less feed, being saved the jarring and pounding, slipping and straining he meets with every day on the old style of snoe, and his usefulness for city work will only be limited by his natural life. Examine your horse's feet and see if they are not already contracted or out of shape. A trial will convince you of its merits. JOHN SWANSON, practical horsesheer, is sole agent for this pad in Los Angeles county. It is highly recommended by all veterinary surgeons.
